EDUCATION

Harcourt Butler Technical University, Kanpur, U.P.

Nov 2020 — May 2024

Electronics Engineering

CGPA: 7.1

Dhumari Public School, Etah, U.P.

April 2017 — March 2019

Intermediate

Percentage: 83.6

Dhumari Public School, Etah, U.P.

April 2016 — March 2017

High School

CGPA:10

EXPERIENCE

KANAD NETWORK PVT. LTD.

Software Engineering Trainee-

June 2023 - Aug 2023

- Managed and maintained telecom data for industry-leading companies including Nokia, Ericsson, Huawei, and ZTE, ensuring accuracy and organization in various formats such as coordinate, handover success attempts, data traffic files, and KPI reports.
- Enhanced proficiency in Microsoft Excel by mastering advanced Excel charts, VLOOKUP, pivot table slicers, and conditional formatting; optimized data analysis processes, resulting in 25 percent faster report generation.
- **Hotel Management System.**
- Technologies Used: C Sharp .NET Framework on Microsoft Visual Studio 2022.
- Developed Hotel Management System in C Sharp .NET Framework. Designed features for efficient hotel operations, created user-friendly interface, collaborated on requirements. Successfully delivered, received positive stakeholder feedback for optimizing operations.

PROJECTS

E-commerce Store

June 2022

- **Key Technology used:** React.js, Node.js, Express.js, MongoDB, MaterialUI, Redux.
- Working: Website with admin and user login for buying and selling. , 3-Tier Architecture. Payment Integration with Credit Card(stripe).
- Advance Search based on 2 Ranges-Category Range and Price Range. .

Student Mark Predictor

August 2023

- **Key Technology used:** NumPy, Panda, Matplotlib, Linear Regression.
- Leveraged advanced technologies including NumPy, Pandas, and Matplotlib to develop a machine learning application.
- Implemented Linear Regression algorithm to predict students' percentage based on the total number of study hours input, Demonstrated proficiency in machine learning techniques and their application to real-world scenarios.

SKILLS

- **Web Technology:** HTML, CSS, Javascript React.js, Node.js.
- **Programming:** C, C++, Java , Python, C Sharp, .Net, Data Structure and Algorithm .
- **CS Subjects:** OOPs, Operating System, .
- **Database:** SQL(3 star Hacker Rank).
- **Communication:** Hindi, English.

ACHIEVEMENTS

- Secured Global Rank 86 out of 28k+ in **Code chef** Starters 122 (Div.3)
- Obtained 2387 rank out of 25k+ in the Division 2 of the **Code Forces** .
- Achieved a **5-star** rating on **HackerRank**, demonstrating exceptional **problem-solving** skills and proficiency in coding challenges.
- Excelled on **LeetCode** by solving over **250+ questions** and Ranked 16th in college on **GeeksforGeeks**, having solved over **430** questions and showcasing dedication to continuous learning and improvement in computer science concepts.
- Directed team practices, honed individual skill sets, and instilled a winning mentality, culminating in the **IIIT Allahabad** Volleyball team's outstanding achievement of securing a Silver medal at Fest **Asmita 2023**.
